# RESOURCE - CHANNEL COMPATIBILITY

## NF-NEON MICRO

### COMPATIBLE CHANNELS

#### SILVER RIGID ALUMINUM PROFILE

Width: 0.54" (1.37cm)  
Height: 0.55" (1.39 cm)  
Length: 6.56' (2 m)

Each 2M/6.56' section of profile has ten pre-drilled holes, and includes ten screws.

The molded caps used on each end for NovaFlex's in-house customization will rest outside the profile. Leave a .11 gap from the edge of the channel to the edge of each molded end cap.

Series	Family	Type	Length	
NF-CH	NEON	MCN	SR	2M

#### SILVER ALUMINUM CLIP

Width: 0.54" (1.37cm)  
Height: 0.55" (1.39 cm)  
Length: 0.79" (2 cm)

This clip mounts behind the neon, with one screw (included).

Always use one clip near to each end of the run (leave a .5" gap from the edge of the clip to the edge of the molded endcap). We generally recommend 7-10 clips per 3.3 feet:

- For ceiling installs, we recommend 10 clips.
- For wall installs, straight runs, 7-clips; for curves/ shapes, wall or ceiling, use the number of clips needed to accomplish the desired shape.
